

MIDWEST FENCE & GATE COMPANY

Surrounding You with Quality, Strength and Lasting Security

*Serving all of Iowa and
Southern Minnesota*

INDUSTRIAL & COMMERCIAL

DISCOVER THE STRONGEST LINK TO YOUR SECURITY

At Midwest Fence & Gate, your security begins with our expertise. But it doesn't end there. With a dedication to excellence, a mission focused on quality, a wide service area, and a commitment to the best materials, the most highly trained personnel, complete project management and superior service after the sale, we are your complete link to lasting security.

OUR HISTORY

We launched Midwest Fence & Gate in 1993 with just two employees. Rapidly earning a reputation for quality Telco fencing and gate systems solutions, our business grew to service a multitude of industries and homeowners in Iowa, Minnesota, Wisconsin, South Dakota, North Dakota and Missouri. Now with 25-35 full-time employees, many of whom have been with the company for more than a decade, we continue to build on our reputation as the Midwest's premier provider of fences, access controls, gate automation, gate operators, and residential fencing systems.

OUR MISSION

To provide our customers with top-notch materials and workmanship on every project we undertake. We believe in the importance of our people and the experience that each person brings to our company. We invest in our employees by having all of our foremen trained at the American Fence Association Field Training School.

OUR EXPERTISE

Site Survey Professionals who will assess your needs and create a customized fencing and gate system to meet your specifications.
Project Managers who will ensure the successful installation and service of your fencing and gate system.
Professionally Trained Crew Foremen who attended the renowned American Fence Association Field Training School for instruction in the most innovative installation techniques, safety procedures, and newest technologies.
Professional Crews backed by a company that is licensed, bonded and insured.
Superior Vendors who are the most highly-respected in the industry, offering only the highest quality fencing and gate materials.
Operator/Service Technicians dedicated to your satisfaction by maintaining a relationship with you and providing superior service after the sale.

OUR PLEDGE TO YOU

Midwest Fence & Gate promises you peace of mind by standing behind our products and services long after we install your fencing system.

COLOR CHAIN LINK

The perfect choice for commercial property owners who need the strength and protection of a chain link fence system, with a look that blends in beautifully with the environment. Colored Chain is the ideal choice for applications where security, protection from corrosion, and product durability are important. For privacy, choose from different types of decorative polyethylene slats tinted to match the shades of our color chain-link systems.

Standard colors available are: Forest Green, Midnight Black, and Sierra Brown.

Features and Benefits:

- Excellent long-term adhesion
- Exceptional resistance to ultra-violet light prevents premature fading.
- Extreme flexibility reduces susceptibility to cracking and chipping, even in changing weather conditions.
- 15-year limited warranty provides confidence and assurance that you've selected one of the best color chain link fence systems available.

GALVANIZED CHAIN LINK

We use commercial grade galvanized chain link to create the fencing and gate systems that ensure your security, safety, and privacy, while adding value and protection to your property.

Our experienced and knowledgeable staff will help you choose the best product and design for your application.

GAME FENCE

PERIMETER FENCE

BARB WIRE

We use commercial grade 9- or 11-gauge wire depending upon the application.

SECURITY ENCLOSURES

We have specialized in cellular tower sites and electrical substations for over 20 years. Midwest Fence & Gate can handle any size project, from a small electrical enclosure to a large substation.

GATE OPERATORS

Gate operators allow you to control access to your property while providing safety and security. Our full-time Operator Service Technician is dedicated to installation, service, and repair. We stock a complete supply of parts and materials. We offer service within 24 hours or sooner, depending upon your security needs.

Complete and comprehensive Preventive Maintenance and Service Agreements are available on all Operators and Access Control Systems. Contact our sales team for more details.

ACCESS CONTROLS

Controlled access to property, whether commercial, industrial or residential, is the key to maintaining the security of both buildings and people. Midwest Fence & Gate has years of experience creating access control solutions specific to our client's needs, whether public or private. Using state of the art technology, highly respected product manufacturers, and our expertise, we can offer you the access control system you require for your peace of mind.

We offer a variety of solutions such as: Telephone Entry Systems, Radio Controls, Cards and Readers, Interrupt Loops, Gate Edge Sensors, Free Exit Loops, Handicapped Pedestrian Portals, Turnstiles, and Computerized Management.

TYMETAL GATES

From design to installation to maintenance, feel the confidence that comes from knowing your perimeter and physical assets are completely secure with the only single source solution in the industry.

Midwest Fence & Gate and Tymetal have united to offer standardized manufacturing, installation, and maintenance of gates and fence lines for multi-site corporations. From start to finish, we build you a fortress of protection.

SAFETY SYSTEMS

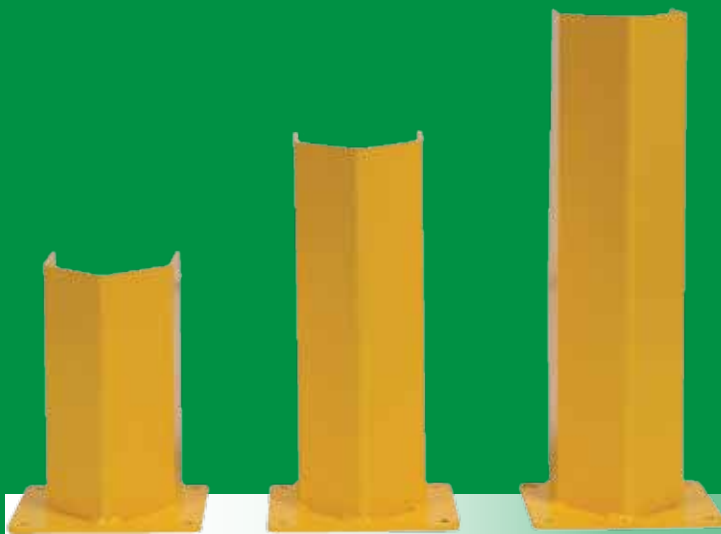

PARTITIONS & CAGES

Machine Guarding Systems are a simple, effective way to protect and separate personnel from the dangers posed by automated equipment.

MACHINE GUARDS

POST PROTECTORS

These wire mesh panels bolt directly to the back of your existing pallet rack uprights, creating a sturdy barrier between stored items and the ground below.

RACK PANELS

GUARDRAILS

Protect people, machinery, and property from accidents involving forklifts, sweepers, or other moving facility equipment. The single guard rail columns are 17" high, and the double guard rail columns are 43" high.

DOUBLE RAIL

SINGLE RAIL

PARTITIONS & CAGES

Midwest Fence & Gate can meet all your needs for interior security partitions and cages. These systems can be used as IT security cages to protect sensitive equipment while allowing air flow; as tool cages to secure costly tools and equipment; as well as for general storage areas.

CUSTOM KENNELS

TEMPORARY FENCE

Construction site theft is at an all time high. Our temporary fence systems offer welded, heavy-gauge wire design and tight mesh spacing, combined with secure hardware to provide our customers with an unmatched level of security at an affordable price. Temporary fencing is also a very cost-effective option for security and crowd control at concerts, marathons, fairs, VIP areas, and many other special events.

We offer Standing or Post Driven Temporary Fencing Solutions. Panels are 6' H x 12' W. Rental agreements are flexible to meet your project's needs and timeframe.

PARKS & RECREATION

Midwest Fence & Gate has your solution for security and safety.

- Baseball Diamonds
- Batting Cages

- Backstops
- Baseball netting
- Tennis Courts
- Basketball Courts
- Stadiums

- Track & Field
- Discus cage
- Parks
- Schools
- Playgrounds

CUSTOM GATES

Size and placement of gate openings can be critical to the functionality of your fence. Midwest Fence & Gate can custom fabricate gates to fit your specific project, providing unlimited flexibility to our customers.

DECORATIVE COLUMNS

Available in a variety of styles and color finishes:

- Stone (Castle Rock, Ledgestone, and Cobblestone styles)
- Stone finishes: Sierra Sand, Limestone, Beige Blend, Marble Gray, Summer Tan, Dakota Blend
- Brick
- Brick finishes: Bordeaux, Rich Brown, Bold Rouge Dusted
- Paneled
- Paneled finishes: Stucco Tan, Stucco Gray

WOOD - VINYL - ORNAMENTAL

Whether you desire more privacy, clearly defined boundaries or improved curb appeal for your home, Midwest Fence & Gate offers a full line of quality wood, vinyl and ornamental fencing to meet your budget and design needs.

- Attractive and functional, wood fences are available in custom styles constructed with treated or cedar wood materials. Though they can be built on wood posts, steel posts do offer more strength and longevity.
- Long-lasting and maintenance-free, vinyl fences come in over 20 different styles and a range of colors including white, almond, adobe, or gray.
- Stylish and practical, ornamental fences are available in many styles and offer security, beauty, and long-lasting strength.

SPECIALIZED EQUIPMENT

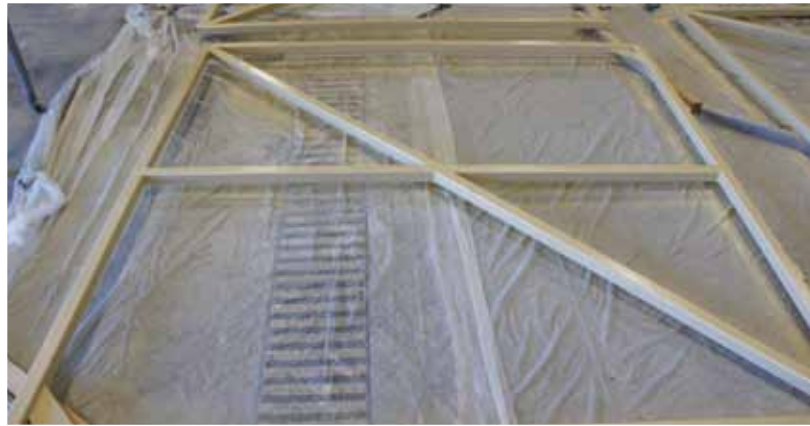

We're one of the few companies in the area with the specialized equipment and skilled crew needed to deal with the specific challenges presented by the Midwest's climate and geology.

- Pressurized Digger: Used to cut through rock and frost up to 60 inches in diameter and 16 feet deep
- Mini backhoe: For digging foundations, trenches, and placing conduit
- Skid loaders: Specialized attachments help us complete jobs safely, more effectively and with greater speed
- Hydro-Vac: Allows us to excavate safely near utilities
- Concrete Mixer: Enables us to better control the quality and timeline of your project
- Instalink: Helps us complete projects faster, while always keeping safety in mind

CUSTOM FABRICATION SHOP

Though we service many customers, we never take a one-size-fits-all approach. Instead, we customize solutions to meet your needs, even anticipating challenges you might not have considered. Then we utilize the talents and skills of our fabrication shop team, building whatever is required to complete your job to exacting specifications. From gates to flange posts and everything in between, we can build it, providing you with the highest-quality, customized solution in a timely manner.
